

ATLAS/ATLAS XL MAGNETIC SWEEPER

Atlas Magnetic Road Sweeper

with bracket mounting

- ★ Most powerful sweeper & holds the most metal debris
- ★ Various mounting options: Forklift, Trailer, Bracket
- ★ **Lifetime Guarantee** on magnetism
- ★ Optional switch for remote cleaning
- ★ Highest speeds - highest road clearances
- ★ Designed for airport and military fields

- Removes potentially damaging metal debris from very rough terrain; such as: rough, unpaved ground containing rocks, bumps, pot holes and other obstructions under bad weather conditions.
- Manufactured with Grade VIII Ceramic magnet material - the highest grade available.
- The magnet body is inside a welded, heavy-gauge steel housing with stainless steel bottom.
- Produce more magnetism over a larger area through greater distances.
- Various options for mounting: Forklift, Trailer, Bracket, etc. with choices of eyebolt, Fulton Safety hitch or any other couplings to meet your specific needs.
- Dings offers various models and sizes of Magnetic Sweepers to fit your specific requirements.

LIFETIME WARRANTY ON MAGNETISM

Dings Magnetic Sweepers are designed with permanent magnets. This means magnetism is guaranteed permanent and covered by a lifetime warranty.

EASY TO USE

Dings Atlas Magnetic Road Sweepers are available in bracket mount, trailer type mount and forklift mounting options. A horizontal handle on the housing releases the load of metal debris, eliminating wiping or had contact with metals. The handle telescopes outward for better leverage when releasing the load. To move away from discharged metal, the handle can be locked in release (non-pickup) position.
