

## Demagnetizing Coil:

- ◇ Sturdy, protective surface withstands severe impacts.
- ◇ Designed for high-capacity with low-rated heat rise.
- ◇ Demagnetize individual ferrous particles/materials
- ◇ Maintenance-free
- ◇ Easy installation
- ◇ Step-winding design

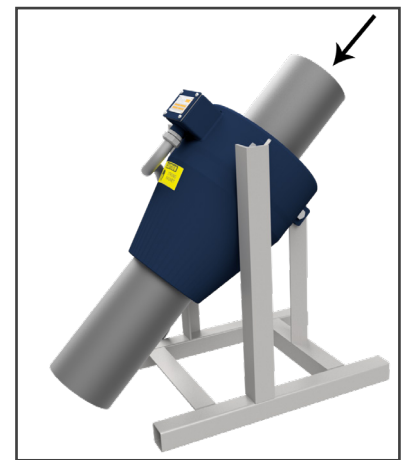

### Engineered for the Removal of Magnetism

- ◇ Where pulps containing magnetic solids are classified or deslimed after discharge from magnetic separators, the individual particles occasionally form magnetic flocs which prevent proper hindered-settling action. Using a Dings Demagnetizing Coil to properly demagnetize the individual particles freely ensure you meet the conditions of your application requirements.
- ◇ Precision ground, honed or machine steel is often magnetized. Dings Demagnetizing Coil will remove magnetism in ferrous materials.

### Dings' Demagnetizing Coils Easy Installation

Dings Demagnetizing Coils are easy to install - just place at any angle and let parts fall through.

### Dings' Demagnetizing Coils

Precision ground, honed or machined steel is often magnetized. Dings Demagnetizing Coils remove magnetism in ferrous materials. They are designed for high capacity with low-rated heat rise.

### Dings' Demagnetizing Coils Features:

- ◇ Demagnetize valve stem caps, magnetized parts, ferrosilicon, magnetic slurries, work held in magnetic chucks and more before passing them through inspection.
- ◇ Fiber glass tape and polyester resin filler results in a sturdy protective surface which withstands high moisture conditions.
- ◇ No maintenance required
- ◇ Dings offers various sizes to fit your specific requirements.

# More Dings Company Magnetic Separation Equipment

**Eddy Current Separator**  
Separate non-ferrous metal

**Deep Draw Drum Magnet**  
Lifetime warranty on magnetism

**Overhead Stationary Electromagnet**  
20-year warranty on coil burnout

**Ferroplate Magnet**  
Lifetime warranty on magnetism

**Pneumatic Inline Magnet**  
Powerful rare earth magnets available

**Quick Clean Perma Chute Magnet**  
Lifetime warranty on magnetism

**Rare Earth Ferroplate Magnet**  
More holding power

**Overhead Self-Cleaning Electromagnet**  
20 year warranty on coil burnout

**Overhead Self-Cleaning Permanent Magnet**  
Lifetime warranty on magnetism

**Severe Duty Overhead Self-Cleaning Electromagnet**  
"Durabelt" Stainless steel pads and cleats

**MRF (Material Recovery Facility) Overhead Self-Cleaning Electromagnet**  
3" high cleats

**Magnetic Head Pulley**  
Available in 3 different strength series

## Engineering Driven - Customer Service Focused

Dings Company Magnetic Group engineering and sales staff work together from our Milwaukee, WI factory to provide outstanding customer service from experts in magnetic separation. We listen to our customers to gain an understanding of their needs and apply our experience in their trade to provide magnetic separation equipment that is sized and positioned for the best possible performance in their specific application.
