

Elektrolift Magnets:

- ◇ Deep magnetic field to reach irregular objects
- ◇ High surface strength for flat steel objects
- ◇ Continuously-welded solid construction
- ◇ Multiple Elektrolifts can be used in tandem
- ◇ Maintenance-free
- ◇ No bolts, screws or nuts that could loosen, makes the Elektrolift trouble-free service.
- ◇ Rated for continuous duty

Dings Elektrolift Magnets are all-welded, steel constructed magnets built to take punishing actions encountered when hoisting steel in factories. Elektrolifts are the preferred answer when searching for a better way to hoist parts on tool beds, grinders, etc. and to load trucks, bins and furnaces. They ship ready to be installed.

Diameters of 4", 8", 13", and 18" are available. Ready for shipment. Our magnetic experts can custom design an Elektrolift Magnet to suit your application needs.

More Dings Company Magnetic Separation Equipment

Eddy Current Separator
Separate non-ferrous metal

Deep Draw Drum Magnet
Lifetime warranty on magnetism

Overhead Stationary Electromagnet
20-year warranty on coil burnout

Ferroplate Magnet
Lifetime warranty on magnetism

Pneumatic Inline Magnet
Powerful rare earth magnets available

Quick Clean Perma Chute Magnet
Lifetime warranty on magnetism

Rare Earth Ferroplate Magnet
More holding power

Overhead Self-Cleaning Electromagnet
20 year warranty on coil burnout

Overhead Self-Cleaning Permanent Magnet
Lifetime warranty on magnetism

Severe Duty Overhead Self-Cleaning Electromagnet
"Durabelt" Stainless steel pads and cleats

MRF (Material Recovery Facility) Overhead Self-Cleaning Electromagnet
3" high cleats

Magnetic Head Pulley
Available in 3 different strength series

Engineering Driven - Customer Service Focused

Dings Company Magnetic Group engineering and sales staff work together from our Milwaukee, WI factory to provide outstanding customer service from experts in magnetic separation. We listen to our customers to gain an understanding of their needs and apply our experience in their trade to provide magnetic separation equipment that is sized and positioned for the best possible performance in their specific application.
