

Remotlas Magnetic Sweeper:

Designed for Airports & Military Fields

- ◇ Ceramic Grade VIII magnetic material
- ◇ Durable carbon steel and stainless steel construction
- ◇ Effective, economical and convenient protection
- ◇ Can be remotely cleaned from inside the cab
- ◇ No-cost separation
- ◇ Reduces tire repairs and replacement costs
- ◇ Magnet body protected by welded housing of heavy gauge steel

Remotlas Trailer Hitch Model

Dings' Magnetic Sweepers protect tires from damage caused by steel objects like nails, screws, wire, rods and other damaging scrap metal. A Magnetic Sweeper operates by simply moving it over areas that need cleaning. It automatically picks up loose pieces of steel. Dings Magnetic Sweepers cost nothing to operate, because they are built with permanent magnets that don't consume energy. The magnetism is guaranteed for life! They are easy-to-use, highly effective and built to operate year after year with an exceptional degree of reliability.

Dings Remotlas Cab Mounted Switch

A driver can unload metal debris without leaving his vehicle. A battery-operated switch mounts next to the driver inside the cab, saving time by eliminating manual unloading. A simple flip of the switch is all it takes to switch from sweeping to unloading!

Dings Remotlas/Remotlas XL Magnetic Sweeper

Removes potentially damaging metal debris from very large traffic areas. It produces more magnetism over a larger area through a greater distance than other models. The Remotlas can be remotely cleaned from inside the cab, with a remote switch, saving time getting in and out of the vehicle.

Dings' Atlas Magnetic Sweeper Features

- ◇ Effective on rough terrain; such as: unpaved ground containing rocks, bumps, pot holes and other obstructions under bad weather conditions.
- ◇ Produce more magnetism over a larger area through greater distances.
- ◇ Highest speeds - highest road clearances
- ◇ Various options for mounting: Forklift, Trailer, Bracket, etc. with choices of eyebolt, Fulton Safety hitch or any other couplings to meet your specific needs.

Remotlas Trailer Forklift Model

Dings uses Superior Grade Ceramic VIII in Their Magnetic Sweepers

Ceramic VIII is best grade of ceramics for magnets, ensuring a stronger, longer lasting magnetic field. Ceramic VIII has a better resistance to demagnetization than Ceramic V or other lower grade materials.

Magnets**

More Dings Company Magnetic Separation Equipment

Ferroplate Magnet

Lifetime warranty on magnetism

Rare Earth Ferroplate Magnet

More holding power

Overhead Self-Cleaning Electromagnet

20 year warranty on coil burnout

Pneumatic Inline Magnet

Powerful rare earth magnets available

Magnetic Head Pulley

Available in 3 different strength series

Deep Draw Drum

Lifetime warranty on magnetism

Quick Clean Perma Chute Magnet

Lifetime warranty on magnetism

Eddy Current Separator

Separate non-ferrous metal

Overhead Self-Cleaning Permanent Magnet

Lifetime warranty on magnetism

Engineering Driven - Customer Service Focused

Dings Company Magnetic Group engineering and sales staff work together from our Milwaukee, WI factory to provide outstanding customer service from experts in magnetic separation. We listen to our customers to gain an understanding of their needs and apply our experience in their trade to provide magnetic separation equipment that is sized and positioned for the best possible performance in their specific application.
