

Sugaron Electromagnet:

- ◇ Balanced Magnetic Circuit for maximum efficiency.
- ◇ Expansion of high dielectric cooling oil takes place inside the magnet box - no additional plumbing or oil tanks!
- ◇ Pressure relief valve prevents moisture from getting into magnet.
- ◇ Step face design
- ◇ Continuous protection of processing equipment preventing costly downtime.

Anodized Aluminum Strap Coils

Dings electromagnetic coils are wound with an anodized aluminum strap— an exclusive design that generates more magnetism than any other on the market and exceeds Class H insulation rating! This design outlasts and out-performs copper wire with polymer insulation or bare aluminum with Nomex® insulation.

Oil Flow =  Anodized Aluminum Strap

20-Year Warranty on Coil Burnout

Dings' Sugaron Electromagnet

Dings Sugaron Electromagnet mounts inside chutes that carry deep loads of processing materials. It combines high surface strength with extended magnetic range. Sugar cane can't push attracted iron off with the step face design. The Sugaron captures metal plates, machetes, cutting tools, etc. in mills processing sugar cane. This electromagnetic separator protects equipment from breakage and damage, prevent costly repairs and production line shutdowns.

Dings Sugaron Electromagnets are available in widths ranging from 54 " to 84". Units have been made for specialty applications. Contact a Dings magnetic expert today.

Dings Electromagnetic Coils

- ◇ No insulation is needed with anodized aluminum straps—eliminating the major cause of coil failure (insulation breakdown)
- ◇ More magnetism and separating power - generated by extra turns
- ◇ Each turn is exposed to oil-cooling - assuring a stronger, more efficient magnet
- ◇ Eliminates the need for external oil expansion pipes or tanks that require maintenance and can be damaged

Dings Electromagnetic Rectifier

All electromagnets require a DC power supply. Rectifiers convert alternating current (AC) from your local power source to the necessary direct current (DC) needed by electromagnets.

- ◇ Maintenance-free
- ◇ Overload capacity for short infrequent periods
- ◇ Corrosion protection in extreme environments

More Dings Company Magnetic Separation Equipment

Eddy Current Separator

Separate non-ferrous metal

Deep Draw Drum Magnet

Lifetime warranty on magnetism

Quick Clean Perma Chute Magnet

Lifetime warranty on magnetism

Ferroplate Magnet

Lifetime warranty on magnetism

Pneumatic Inline Magnet

Powerful rare earth magnets available

Overhead Self-Cleaning Permanent Magnet

Lifetime warranty on magnetism

Rare Earth Ferroplate Magnet

More holding power

Overhead Self-Cleaning Electromagnet

20 year warranty on coil burnout

Magnetic Head Pulley

Available in 3 different strength series

Engineering Driven - Customer Service Focused

Powerful Magnetic Products Since 1899

Dings Company Magnetic Group engineering and sales staff work together from our Milwaukee, WI factory to provide outstanding customer service from experts in magnetic separation. We listen to our customers to gain an understanding of their needs and apply our experience in their trade to provide magnetic separation equipment that is sized and positioned for the best possible performance in their specific application.
