

Atlas Magnetic Sweeper:

Designed for Airport and Military Fields

- Ceramic Grade VIII magnetic material
- Durable carbon steel and stainless steel construction
- Effective, economical and convenient protection
- Maintenance-free, easy-to-use models
- No-cost separation
- Reduces tire repairs and replacement costs
- Magnet body protected by welded housing of heavy gauge steel

Atlas Road Sweeper 48in. Trailer Mount

Dings' Magnetic Sweepers protect tires from damage caused by steel objects like nails, screws, wire, rods and other damaging scrap metal. A Magnetic Sweeper operates by simply moving it over areas that need cleaning. It automatically picks up loose pieces of steel. Dings Magnetic Sweepers cost nothing to operate, because they are built with permanent magnets that don't consume energy. The magnetism is guaranteed for life! They are easy-to-use, highly effective and built to operate year after year with an exceptional degree of reliability.

Atlas Road Sweeper Bracket Mount

Dings Atlas/Atlas XL Road Sweeper

Removes potentially damaging metal debris from very large traffic areas. It produces more magnetism over a larger area through a greater distance than other models. It comes equipped with a horizontal handle that releases the load of metal debris. A handle provides better leverage when releasing the load and can be locked into position for safety.

Dings' Atlas Magnetic Sweeper Features

- Effective on rough terrain; such as: unpaved ground containing rocks, bumps, pot holes and other obstructions under bad weather conditions.
- Highest speeds highest road clearances
- Optional switch for remote cleaning
- Various options for mounting: Forklift, Trailer, Bracket, etc. with choices of eyebolt, Fulton Safety hitch or any other couplings to meet your specific needs.

Dings uses Superior Grade Ceramic VIII in Their Magnetic Sweepers

Ceramic VIII is best grade of ceramics for magnets, ensuring a stronger, longer lasting magnetic field. Ceramic VIII has a better resistance to demagnetization than Ceramic V or other lower grade materials.

Engineering Driven - Customer Service Focused

Dings Company Magnetic Group engineering and sales staff work together from our Milwaukee, WI factory to provide outstanding customer service from experts in magnetic separation. We listen to our customers to gain an understanding of their needs and apply our experience in their trade to provide magnetic separation equipment that is sized and positioned for the best possible performance in their specific application.
