

Demagnetizing Coil:

- ◇ Sturdy, protective surface withstands severe impacts.
- ◇ Designed for high-capacity with low-rated heat rise.
- ◇ Demagnetize individual ferrous particles/materials
- ◇ Maintenance-free
- ◇ Easy installation
- ◇ Step-winding design

Dings' Demagnetizing Coils

Precision ground, honed or machined steel is often magnetized. Dings Demagnetizing Coils remove magnetism in ferrous materials. They are designed for high capacity with low-rated heat rise.

Dings' Demagnetizing Coils Features:

- ◇ Demagnetize valve stem caps, magnetized parts, ferrosilicon, magnetic slurries, work held in magnetic chucks and more before passing them through inspection.
- ◇ Fiber glass tape and polyester resin filler results in a sturdy protective surface which withstands high moisture conditions.
- ◇ No maintenance required
- ◇ Dings offers various sizes to fit your specific requirements.

Engineered for the Removal of Magnetism

- ◇ Where pulps containing magnetic solids are classified or deslimed after discharge from magnetic separators, the individual particles occasionally form magnetic flocs which prevent proper hindered-settling action. Using a Dings Demagnetizing Coil to properly demagnetize the individual particles freely ensure you meet the conditions of your application requirements.
- ◇ Precision ground, honed or machine steel is often magnetized. Dings Demagnetizing Coil will remove magnetism in ferrous materials.

Dings' Demagnetizing Coils Easy Installation

Dings Demagnetizing Coils are easy to install - just place at any angle and let parts fall through.

More Dings Company Magnetic Separation Equipment

Eddy Current Separator
Separate non-ferrous metal

Deep Draw Drum Magnet
Lifetime warranty on magnetism

Overhead Stationary Electromagnet
20-year warranty on coil burnout

Ferroplate Magnet
Lifetime warranty on magnetism

Pneumatic Inline Magnet
Powerful rare earth magnets available

Quick Clean Perma Chute Magnet
Lifetime warranty on magnetism

Rare Earth Ferroplate Magnet
More holding power

Overhead Self-Cleaning Electromagnet
20 year warranty on coil burnout

Overhead Self-Cleaning Permanent Magnet
Lifetime warranty on magnetism

Severe Duty Overhead Self-Cleaning Electromagnet
"Durabelt" Stainless steel pads and cleats

MRF (Material Recovery Facility) Overhead Self-Cleaning Electromagnet
3" high cleats

Magnetic Head Pulley
Available in 3 different strength series

Engineering Driven - Customer Service Focused

Dings Company Magnetic Group engineering and sales staff work together from our Milwaukee, WI factory to provide outstanding customer service from experts in magnetic separation. We listen to our customers to gain an understanding of their needs and apply our experience in their trade to provide magnetic separation equipment that is sized and positioned for the best possible performance in their specific application.
