

Yard Magnetic Sweeper

- Ceramic Grade VIII magnetic material
- Durable carbon steel and stainless steel construction
- Effective, economical and convenient protection
- Easy to use with no maintenance
- More effective than vacuum or power sweepers.

Dings' Magnetic Sweepers protect tires from damage caused by steel objects like nails, screws, wire, rods and other damaging scrap metal. A Magnetic Sweeper operates by simply moving it over areas that need cleaning. It automatically picks up loose pieces of steel. Dings Magnetic Sweepers cost nothing to operate, because they are built with permanent magnets that don't consume energy. The magnetism is guaranteed for life! They are easy-to-use, highly effective and built to operate year after year with an exceptional degree of reliability.

Yard Magnet Sizes & Operating Height:

This 4 7/8 inch wide magnet available in 3 ft, 4 ft, 5 ft, 6 ft, and 7 ft lengths.

Clearance Above the Roadway Can be Adjusted:

Maximum Clearance	Maximum Speed
1/2 inches	12 mph
1- 1/4 inches	8 mph
2 inches	4 mph

Remember

- Lower settings allow higher speeds
- Smaller steel objects may require lower settings
- Maximum towing speed is 20 mph

Dings Yard Magnetic Sweeper

keeps the vehicle areas free from tire-damaging steel pieces. It eliminates downtime expenses by keeping vehicles in service. The Yard Model is designed with two eyebolt mounts for suspending from vehicles. It provides continuous, maintenance-free protection.

Dings' Yard Magnetic Sweeper Features

- Removes nails, screws and other potentially damaging metal debris from parking lots, gravel roads, runways, shop floors, streets, pathways, etc.
- ♦ Power-packed, permanent non-electric magnet.
- Our Yard Magnetic Sweepers cost \$0 (zero dollars) to operate.
- Bottom is flat and smooth stainless steel for easy wipeoff of attracted debris.
- ♦ Eyebolt mounted under utility vehicles
- Provides continual, maintenance-free protection. Only requires manual cleaning when magnet is loaded.

Dings uses Superior Grade Ceramic VIII in Their Magnetic Sweepers

Ceramic VIII is best grade of ceramics for magnets, ensuring a stronger, longer lasting magnetic field. Ceramic VIII has a better resistance to demagnetization than Ceramic V or other lower grade materials.
