Available Widths

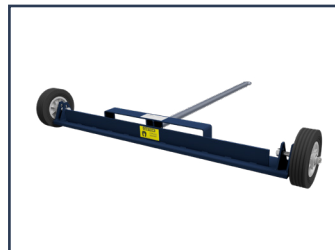

Width Required: _____

Yard Magnetic Sweeper

Keeps vehicle areas free from tire-damaging steel pieces. It eliminates downtime expenses by keeping vehicles in service.

The Yard Model is designed with two eyebolt mounts for suspending from vehicles. It provides continuous, maintenance-free protection.

Mounting: Eyebolt Mount

Tireguard

Max Speed:
Max. Clearance:
Available Widths

Width Required: _____

Tireguard Sweeper

A powerpacked magnet on wheels. The Tireguard keeps large and small traffic areas free from tire-damaging steel and iron pieces.

Dings Tireguard Magnetic Sweeper is economical, versatile, lightweight and tough!

Mounting: Trailer mount
Forklift mount
Bracket mount

Roadguard

Max Speed:
Max. Clearance:
Available Widths

Width Required: _____

Roadguard Sweeper

The Roadguard offers power plus the convenience of a time-saving release. The lever releases metal debris, eliminating wiping or hand contact with metal and can be locked in release (non-pickup position) for safety. This model can exert nearly a ton of force on a wide block of steel.

Mounting: Trailer mount
Forklift mount
Bracket mount

Flatguard

Max Speed:
Max. Clearance:
Available Widths

Width Required: _____

Flatguard Sweeper

The Flatguard has a removable onboard pan that can accumulate much more metal debris than other model on the market. It is constructed for hard usage encountered in military service over rough, unpaved ground containing rocks, bumps, pot holes, debris and other obstructions under bad weather conditions.

Mounting: Trailer mount

Atlas

Max Speed:
Max. Clearance:
Available Widths

Width Required:

Atlas/Atlas XL Sweeper

Atlas & Atlas XL sweepers remove potentially damaging metal debris from very large traffic areas. It produces more magnetism over a larger area through a greater distance than other models. It comes equipped with a horizontal handle that releases the load of metal debris. A handle provides better leverage when releasing the load and can be locked into position for safety.

Mounting: Trailer mount
Forklift mount
Bracket mount

Remotlas

Max Speed:
Max. Clearance:
Available Widths

Width Required: _____

Remotlas/Remotlas XL Sweeper

Remotlas & Romotlas XL sweepers remove potentially damaging metal debris from very large traffic areas. It produces more magnetism over a larger area through a greater distance than other models.

The Remotlas can be remotely cleaned from inside the cab, with a remote switch, saving time getting in and out of the vehicle.

Mounting: Trailer mount
Forklift mount
Bracket mount

Atlas FT24

Max Speed:
Max. Clearance:
Available Widths:

Width Required:

Atlas FT3X-24 Sweeper

The world's largest sweeper. It is designed for commercial airports and military fields. The Atlas FT3X-24 can easily sweep large constrained areas and achieve traveling speeds of up to 55 mph.

This model provides the most effective and labor-saving FOD control at airports. Each of the sections can be used interchangeably, allowing any of them to be connected to the vehicle as lead magnet.

Mounting: Ring hitch and swing away swivel jack mount.
